EXPERIENCE

Career Education Council

App Development Intern

Remote

Feb 2024 – Jun 2024

- Developed functional application prototypes using **Swift** and **Xcode**, ensuring compatibility with user requirements.
- Collaborated with stakeholders to gather requirements for "Scholar's Spark," an app connecting students to academic resources.
- Conducted testing and debugging to resolve logic errors and improve application stability before deployment.

The Odin Project

Web Developer (Self-Directed)

Remote

Apr 2025 – Present

- Building responsive web applications using **HTML**, **CSS**, and **JavaScript**, adhering to modern web standards.
- Managing code repositories and project versions using **Git** and **GitHub**.
- Implementing **Firebase** to manage real-time user data and authentication for mobile and web projects.

St. Edmund Campion Secondary School

Technical Lead & IT Support (Game Dev Club)

Brampton, ON

Sep 2023 – Apr 2025

- Resolved software access issues by implementing a cloud-based file distribution system, bypassing local network restrictions.
- Provided technical assistance to 30+ members, troubleshooting software installation errors and debugging code.
- Coordinated timelines and technical resources for a 5-person development team.

St. Edmund Campion Secondary School

Instructor & Workshop Facilitator

Brampton, ON

Sep 2023 – Apr 2025

- Created and delivered technical workshops on **Swift** programming and design to over 30 students.
- Acted as the primary point of contact for technical issues, helping users resolve logic errors and setup problems.

PROJECTS

AI Agent Development

VOLUNTEER EXPERIENCE

Hazel McCallion Walk for Health

Event Support Staff

Mississauga, ON

Jun 2023

- Coordinated logistics and ensured safety protocols were followed for event participants.
